

MINI-POOL

- The pool should be for young children
- Safety of inground pool must be studied carefully, concern that it will be dangerous and unclean. ✓
- Dry Dock already has in-ground pool, do we really need to disrupt this space?
- Hamilton Fish Pool provides some adult swimming but it would be amazing to be allowed to swim here
- Excited for expanded pool for children
- We need a place for parent seating ✓
- Need place for things like hooks for towels, shoe space, bag space etc.
- 3' depth is ideal for young children, keep! ✓
- Cubicles need to be inside the pool area for security
- Stroller parking outside
- Water temp. and pressure intensity should be studied for children's comfort

- Good that the pool is tucked away, as it is already
- Provide stair access, allows for very small children to ease in ✓
- Consider accessibility for all to swim, exceed minimum
- Mini-pool should be multi-use so space has purpose off season

BASKETBALL COURTS

- Keep existing 2 full courts ✓✓
- Basketball area behind fitness could remain untouched too
- Basketball courts have HIGH demand always
- Do not reduce size of area dedicated to basketball courts
- If more room is needed for fitness, consider expanding into the halfcourt area
- Don't change layout
- Please provide padded stanchions
- Resurfacing should include removing the low points, one part is bad.
 - Include water such as drinking fountains/bottle fillers
 - Pay to use lockers would be nice
 - Please include sports lighting or some type of lighting.
 - Do not close the basketball courts at all

Additional comments to be collected via online survey at nyc.gov/parks/input

ADULT FITNESS

- Fitness bars are best in city. Do not change! These are loved! ✓✓✓✓
- The current equipment fosters socializing and welcomes all ages
- Fitness area is vital -- don't close this area to the public at all ✓✓
- Existing bar length, thickness, everything is already nearly perfect.
- The equipment promotes creativity, open to relocation but not radical change ✓
- It's not a gym, it's a park. The existing equipment is better than individualized "units" ✓
- Existing unit caters to advanced calisthenics practitioners; rare to find ✓
- Existing features are in good condition ✓
- Nice new durable paint that doesn't come off might be good, but if it will just flake off again, do not! Remember, bare hands ✓
- Fitness area is used by kids too
- Replace surfacing under the equipment and ok to add ADA features

HANDBALL COURTS

- These are good for practicing tennis, keep! ✓
- Maybe resurface and paint would be nice but not much, maybe fence repair

PLANTING

- Existing trees must be protected at all costs! ✓✓
- No mature trees should be damaged

SAFETY

- More lighting throughout park would be good
- Is an inground pool dangerous?
- Fix drainage issues

OTHER TOPICS

- Flooding needs to be prevented near Ave.A
- Garbage cans need to be rat-proof
- Rat mitigation is needed throughout project
- Construction fatigue in this area with sewer and other construction overwhelming residents ✓✓
- Slocum area should not have a separate entrance from E.10th ✓
- Kids bathrooms should be open year round
- Fixing the Slocum sprinkler would be great
- Can construction be phased?
- Can kids bathrooms stay open year round?

PATHS SEATING AREAS

- Pathways need to be resurfaced along 9th St and Ave.A
- There should be an ADA ramp here and easier for all to use is good
- Walkways are in bad shape, these should be a priority, 9th St. Transverse and otherwise
